

# **Always Love You**

© *Freeman / O'Leary*

**Digging in the yard in a dress  
Dancing in the dirt  
Remember that time that you picked that flower  
Said it would heal my hurt  
Funny faces in the mirror  
Couldn't make your cute any clearer  
We live to laugh**

*I will always love you  
It's true, it's true, so true  
I will always love you  
It's true, it's true, love you*

**Rolling down a highway heading east  
To a snow filled mountain top  
These are the best times, too much fun  
You told me don't ever stop  
Silly stories at the sunrise  
Tears of laughter in our eyes  
Hey I'm good with that**

*(Chorus)*

**Heading up the coast in a bright red cherry El Camino  
Hair flying in the wind and what the hell do we know  
With nothing ever promised  
Except the love that will always be the strongest**

*(Chorus)*
