

Best Times

© *Freeman / O'Leary*

**We're headin' out for a little bit of sunshine
Great friends hard to come by
Top goes down, song comes on
Turn it up, sing along**

***These are the finest times I've known
These are the best times
It makes no difference where we go
For the best times***

**Every day feels like the weekend
Crazy Joe in the deep end
Top pops off, drink it up
I'm sippin' life from a bottomless cup**

***These are the finest times I've known
These are the best times
It makes no difference where we go
For the best times***

**Box of pictures from the attic, playin' back my life
And it ain't perfect, but it's been magic
This life of best times**

(solo) – Top pops off, drink it up yeah

***These are the finest times I've known
These are the best times
It makes no difference where we go
For the best times, the best times, the best times (2x)***
