Verse 1

My daddy once told me
Said listen here son
Everything that has a beginning
Will someday be done
So when you're feeling up
You know you're gonna come down
When you're feeling low
Eventually it'll turn around

Chorus

'til then
There ain't nothin'
A little drinkin'
Can't make a little better
There's no bummin'
A lot less thinkin'
It all gets a little better
There ain't nothin'
A little drinkin'
Can't make a little better

Verse 2

So I listen to my Daddy
Several times a day
After work at work before work no work
It's working out okay
I can't abuse it
Gotta work my way in
Sober up by 5
And it's happy hour again

Chorus

There ain't nothin'
A little drinkin'
Can't make a little better
There's no bummin'
A lot less thinkin'

When your wifi signal's weak (it's a little better)
When your oil pan starts to leak (it's a little better)
When your career is in the ditch or your kid's up all night sick
Just grab yourself a drink and get a little better
